What This Guide Includes

Whether a first-time or frequent visitor, or a new or lifelong resident, this guide is designed to help you locate the many natural, historical, cultural, and recreational resources of the western Lake Erie region. Boaters searching for marinas and boating services; visitors looking for hotels, restaurants, and riverfront festivals; and motorists touring the area for its natural and historical amenities will find this guide equally helpful.

This guide was produced by the Ohio Sea Grant College Program. The National Sea Grant College Program, created by Congress in 1966, is a commitment, a partnership, a bridge and a bond. It's a commitment to solve coastal problems and develop marine resources. It's a partnership and a bridge between government, academia, industry, scientists, and private citizens to help Americans understand and sustainably use our precious Great Lakes and ocean waters for long-term economic growth. And it's a bond uniting 29 State Sea Grant programs, over 200 universities, and millions of people. In short, Sea Grant is an agent for scientific discovery, technology transfer, economic growth, and public education as they involve coastal, ocean and Great Lakes resources.

Information for this guide was compiled by Joe Lucente and Gail Ritsler of the Ohio Sea Grant Extension Office in Toledo (419-213-2015).

History & Highlights of the Western Lake Erie Region

Lake Erie was formed about 12,000 years ago as a result of glacial activity. Its shallowness, warm temperatures, and nutrient content make it the most biologically productive of the Great Lakes. In the 1960s, Lake Erie's water quality was poor, primarily due to phosphorus pollution. Today, with tighter pollution controls, the lake invites swimming, fishing, boating, and other recreation. This guide lists public parks and sites with access to the lake, as well as charter fishing services and area marinas with seasonal and transient dock space.

Much of the western Lake Erie region was at one time low marshland that included the "Great Black Swamp." The defeat of Native American inhabitants by the federal troops at the Battle of Fallen Timbers in 1794 opened the way for settlers to clear and drain the land for agricultural development. Some of the original marshland has been preserved and protected as **Ottawa National Wildlife Refuge**, and at **Metzger Marsh, Magee Marsh, Turtle Creek,** and **Toussaint Creek Wildlife Areas.** These areas allow fishing, hiking, picnicking, photography, birdwatching, hunting, and cross-country skiing. The Toledo Metroparks offer additional fishing and river canoeing.

The Maumee River, the largest tributary to the Great Lakes, begins at Fort Wayne, Indiana, and flows through much of northwest Ohio before joining Lake Erie at Maumee Bay near Toledo. Throughout history, the river has been an important transportation corridor in the lower Great Lakes region, connecting the Atlantic, Great Lakes, and Mississippi River watersheds. Because of its strategic location, the Maumee River Valley was the site of many battles during the French and Indian War and the War of 1812. Guided tours are available of restored **Fort Meigs** in Perrysburg, the scene of two major War of 1812 battles.

The construction of the Miami & Erie and Wabash & Erie canals in the 1830s linked the Maumee Valley to world markets, leading to the region's development as a shipping and transportation center. Remnants of this canal era have been restored at **Providence Metropark,** where visitors can ride in a modern replica of a canal boat or walk along a towpath and view a working canal lock. The nearby villages of **Grand Rapids** and **Waterville** have restored buildings of this era, which now house shops and restaurants. The **Wolcott House Museum** located in the city of Maumee authentically depicts life during this period.

The Maumee riverfront is active with festivals and events during summer and fall. **Promenade Park** in Downtown Toledo is the site of weekly "Rally by the River" musical events. Rental docks are available for those who prefer the comfort of their own boat to the crowds at the park. Boat cruises are also available from this location, as well as from the Rossford Marina. Another Downtown Toledo waterfront attraction is the **Willis Boyer Ship Museum,** a restored lake freighter. Visits to other attractions, such as the **Toledo Zoo,** combined with dining at an area restaurant and shopping at the **Farmer's Market, Erie Street Market** or the **Libbey Glass and U.S. Glass Specialty Outlets** make for a memorable visit to Toledo.

Miami & Erie Canal Boat Ride

Experience what life was like during the canal era. Board the **Volunteer**, a modern replica of a canal boat for a 45-minute de through a working canal lock with crew members dressed in period costumes. The restored Isaac Ludwig Mill, also locate n the park, operates as a 19th century hydro-powered sawmill. These historical reenactments are open to the public on Wednesday through Sunday between May and October. Canal boat ride tickets may be purchased at Providence Metropa Grand Rapids. Call 419-535-3050 or 419-832-6004.

The maps in this guide are intended solely for general informational purposes. They are not drawn to scale, do not indicate underwater conditions or hazards, and should not be relied upon for navigational purposes.

Due to shallow waters, the Maumee River between Perrysburg and Grand Rapids is not navigable for motorized vessels.

The numbers and symbols on these maps indicate the location of marinas, boating retailers, hotels, restaurants, attractions, and charter fishing. See reverse side for more detailed information. Locations on this map are approximate; some destinations may require a more detailed road map.
