

Ohio's 2014 Coastweeks

International Coastal Cleanup September 2014

What is Ohio's Coastweeks?

Coastweeks is Ohio's contribution to an international celebration of our waters and shorelines held in the States and around the world. Ohio's program focuses on the theme, *"I Can Help Lake Erie"* to encourage people to be part of the solution, not the pollution that finds its way into the lake. The debris collected at all cleanups is recorded on data cards and submitted to the Ocean Conservancy. This data has been effective in yielding many state, federal and international laws relating to water quality and pollution prevention.

The Ohio Coastweeks program is sponsored in part by the International Ocean Conservancy.

Pick a date, a time and an event - come out and make a difference.

Ohio's Coastweeks 2014

International Coastal

Clean Up Day: September 21, 2014

*Return event form by
July 21, 2014
or as soon as you know
of your clean up, please!*
